Story so far

After Yamashita Yuzu's mother passed away, Yuzu became the potential heir of her wealthy grandmother Shirayuki Mitsuko, the president of Shirayuki Group.

She enrolled in Getsuei High School's Elite A class and fell in love with her grandmother's personal assistant, Kagami Hassaku. However, Hassaku told her, "You're precious to me, but I have no romantic feelings for you." Furthermore, her grandmother found her 3 potential fiancés. The first fiancé is Masaya, a film director who worked together with Yuzu in a project to advertise a wedding hall. The second fiancé is an upperclassman Yuzu admired in middle school, Sudachi-senpai.

One day, Yuzu discovered her mother's diary while exploring her mother's room. She learned that her mother was in love with her former fiancé, Amakusa. Furthermore, Amakusa-san is Yuzu's real father...!?

Addictions 2

This summer, I did not frolick at the beach. Instead, I spent 2 weeks playing Tales of Vesperia and Persona 4. In addition, at the end of last year, I started playing Elder Scrolls IV: Oblivion. I haven't played too many video games in recent years, so I thought I graduated from them. Looks like that hasn't quite happened yet. Sob.

Playing video games is so much fun though! (lol) Right now, in Elder Scrolls IV: Oblivion, I spend half my time assisting newbies who need help and the other half robbing people as a Novice Assassin.
